My NPQ Journey

Name: Lucy Barnwell

School: St Anne's Catholic High School for Girls

Title: Pedagogy Lead & SCITT/ECT Professional Tutor

NPQ: NPQLT

How has your NPQLT experience influenced both your classroom practice and your leadership approach within the wider school context?

My NPQLT has impacted my own classroom practice greatly, as I have been able to apply some of the key principles into my teaching style. For instance, I have changed the way I approach assessment in my lessons so I am able to review the strengths and weaknesses of the approach. I have found this helps in improving student outcomes and I have been able to share it with my department to improve overall student engagement.

Because of the NPQLT, I have taken on the role of Pedagogy Lead and am helping to develop more pedagogical approaches across the school in accordance with the school policy.

Lastly, the NPQLT has helped my approach to leadership through the implementation of policies. Now, when implementing new ideas, I am cautious of staff buy in and timing of policies to be rolled out.
